April 29, 2011

Dear Watertown Middle School families,

Watertown Middle School has had security cameras on selected external doors for several years. Recently, following school committee approval, we have repaired these cameras and added new security cameras in the cafeteria and some hallways.

Your children's safety and the safety of the community are paramount to us. These cameras, all of which are located in external and internal common areas (re: not in classrooms, bathrooms, etc.) will be monitored by school administration to ensure the safety of the building. While the primary purpose of the cameras is public safety, students caught violating school rules on camera will also be subject to appropriate school discipline.

Please feel free to contact me with any questions and concerns.

Best regards,

J. Kimo Carter, Principal
