

SUBCOMMITTEES OF THE SCHOOL COMMITTEE

The School Committee may appoint its members to subcommittees to be responsible either for one specific problem or for a general area of School Committee concern. Members may be appointed to subcommittees at the meeting for organization or at any time it becomes desirable to do so during the year. When formed, subcommittees should be designated as either “continuing” (or “permanent”) or “ad hoc” in nature.

1. The function of a subcommittee is to investigate, to become informed, and then to report back to the School Committee.
2. A subcommittee may make recommendations to the School Committee, but it has no power to make decisions which bind the School Committee as a whole.
